This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

REPORT OF THE COUNCIL

OF

The Pipe Roll Society.

Read at the Committee Meeting on the 22nd November, 1898.

THE present Volume, Vol. XXIII., is a continuation of Vol. XX., which was issued in 1896, and contained a collection of the Feet of Fines of the 7th and 8th years of Richard I.

In this volume are printed one Fine of the 8th year of Richard I., which should have been included in Vol. XX., and all those in the Public Record Office of the 9th year of the same King, arranged in chronological order, as in Vols. XVII. and XX.

As stated in a circular which was sent to all the members of the Society about a year ago, the number of members has considerably diminished of late years by death, and there are very few new members to make up for this loss.

The annual income of the Society does not, therefore, enable the Committee to give as much as it considers it ought to give, in return for the annual subscription, nor is it sufficient to justify the Committee in having any more Pipe Rolls transcribed.

The Committee, however, possesses transcripts of the remaining Feet of Fines of the reign of Richard I., which are sufficient to make another volume; and it proposes, if subscriptions are forthcoming to meet the cost, to print these Feet of Fines as the concluding volume of the Series.

The Treasurer's Statement follows on p. vii.

The following list describes the publications up to date:—

For 1883-4, three volumes:—

I. The Pipe Roll of the Fifth year of King Henry II., A.D. 1158-9 (9 rotulets).

II. The Pipe Roll of the Sixth year of King Henry II., A.D. 1159-60 (7 rotulets).
